Chip,
Can you distribute this to the TCT?

Hiya.

As we discussed, I've attached a draft of discussion points for developing a unified recontamination evaluation strategy. I'll be prepared to give a quick overview and ask for agreement on the 1st 2 sections (Assumptions and Issues for Consideration) during my 15 minutes at tomorrow's meeting. The intent is to get this in their hands so we can have more fruitful discussions after reviewing the LWG modeling. Let me know if you think I should make changes prior to distribution. Thanks for distributing.
